- Most groups are run by a Physiotherapist or Therapy Assistant
- Memory Support Group and Men's Group are run by our Occupational Therapy Staff
- Individual one-on-one gym programs are held during the week with Therapy Assistant
- Most groups require a physiotherapy assessment prior to joining. This helps us identify the most

Group descriptions

CORE FIT

Based on Pilates and run by our experienced Physiotherapists, this program will improve your overall strength, balance, posture, mobility and endurance. Come along and feel fit to your core!

CIRCUIT & GYM CIRCUIT

Improve your overall fitness, stamina, and balance by joining the Circuit Group. This group includes the use of gym equipment, circuit-style exercises, and balance stations. The Gym Circuit program is similar, adding free weights and timed station sessions!

CHAIR-BASED EXERCISE

Designed for clients who are a little frailer, the Chair-based Exercise program provides gentle/progressive strengthening exercises for upper and lower limbs to enhance strength, flexibility, improve mobility and maximise independence.

MEMORY SUPPORT

The Memory Support group provides a varied session comprised of seated movement and balance exercises, in addition to conversation and themed discussions over morning tea. This group supports those with the diagnosis of mild dementia in a safe and welcoming space.

WOMEN'S / MEN'S GROUP

These groups are structured sessions with conversations (lots of laughter) and activities. The groups provide emotional and social connections and will help you maintain cognitive function over some morning or afternoon tea.

LIGHT WEIGHTS

Through the combination of seated and standing exercises, together with light weights, this group will improve your general strength, bone density and help to maintain your mobility and balance.

TAI CHI & CHI BALL

Our Tai Chi group will help improve your coordination, concentration as well as your balance and strength, all in a calm and relaxing setting. Our Chi Ball group incorporates Tai Chi, Dance, Yoga and Feldenkrais.

BEGINNERS TAI CHI

Our Tai Chi group will help improve your coordination and concentration as well as your balance and strength, Come and try it will improve your quality of life and muscular strength and flexibility, you will find it to be an enjoyable experience.

UPRIGHT FOR LIFE

Designed specifically to improve balance, Upright for Life provides strengthening exercises and challenging balance exercises, plus strategies to improve confidence and avoid falls.

- Most groups are run by a Physiotherapist or Therapy Assistant
- Memory Support Group and Men's Group are run by our Occupational Therapy Staff
- Individual one-on-one gym programs are held during the week with Therapy Assistant
- Most groups require a physiotherapy assessment prior to joining. This helps us identify the most

STRONG AND STEADY

If you would like to improve your balance, leg strength and fitness, this is the group for you! Using a circuit format, our Strong and Steady group will help to get you feeling strong and confident.

MOVE AND GROOVE

Move and Groove will keep your joints moving while providing some fun at the same time. Come along and join in the fun while you dance and sing along!

FIT BALL DRUMMING

Drumming is a great work out for your brain and physical body. They say an hour of drumming burns more calories than running, aerobics or weights. Drumming can lower blood pressure and improve cognitive brain function.

YOGA

Yoga increases your flexibility increases you muscle strength and tone. Maintains your cardio and circulatory health. Yoga brings harmony between your mind and body.

SPEECH THERAPY – TALKBACK GROUP

The Talkback Group runs to support people living with aphasia. It provides opportunity to participate in conversation and to practice finding words. It improves social opportunities for people living with aphasia.
